GIANT BIRDS

CROWNED EAGLE

The crowned eagle is the most powerful eagle in Africa. With thick legs and long talons, it can attack prey more than four times its size.

ELEPHANT BIRD

Before it became extinct, the elephant bird lived on the island of Madagascar. The average elephant bird was 10 feet tall and weighed about half a ton, making it one of the biggest birds of all time.

OSTRICH

The ostrich is the largest and heaviest living bird. It cannot fly, but can run at a steady speed of 31 miles/hour.

SHOEBILL

The shoebill can reach a height of 5 feet and eats big fish like lungfish, eels, catfish, and even baby crocodiles.
