buffalo

hyrax

mongoose

warthog

baboon

aardvark

hyena

lion

leopard

cheetah

Coloring time

Thirsty zebras

Help the zebras find the waterhole. But watch out for the stalking lion and pesky tsetse flies!

Counting from 1 to 10

1

2

5

6

9

Watch closely as the number of giraffes (& their friends) grows from 1 to 10.

What a long neck!

Which giraffe has the longest neck?
And which has the shortest?
How many giraffes can you count?

By the river

How many animals can you find in this picture?
What are they named?

Spot the differences

Can you spot 5 differences between the two giraffes?

Can you spot 4 differences between the two lilac-breasted rollers?

Many mongooses

How many mongooses can you count? Are there more eggs than snakes?

Opposites

in

out

day

night

dry

wet

fast

slow

A habitat for me

Match the animal on the left with its favored habitat or food on the right.

Answers: dung beetle + elephant feces, tsetse fly + forest/ animals, termite + log, butterfly + flowers

My favorite food

Match the animal on the right with its food source on the left.

Answers: lion + wildebeest/zebra, giraffes + trees, secretary bird + insects/reptiles, Thomson's gazelle + grass

Shorter, longer

For each row, circle the longer chain of animals.

Where's my mother?

Help the elephant calf reach its mother but watch out for sneaky predators!

Shapes & colors

purple

rectangle

brown

star

orange

pentagon

pink

oval

How many giraffes?

How many giraffes can you count?

Do you see more elephants or more hyenas?

Shapes in the night

What shapes can you find in this night-time scene? How many thirsty mongooses do you see?

Colorful ostrich eggs

Can you help the blue, red, & pink mother ostriches find their eggs?

Do you see any unusually-shaped eggs?

Mixing colors

Let's see what happens when we mix colors.

Number practice

Color by number

1: red, 2: blue, 3: yellow, 4: green, 5: brown.

Whose tracks?

Match the animal on the left with its tracks on the right.

Answers: kori bustard + tracks in row 3, lion + tracks in row 4, elephant + tracks in row 1, giraffe + tracks in row 2

Coloring time

Triangles here & there

How many triangles are in this picture?

Hint: there are more than 2 and less than 6.

Termites for supper

Help the aardvark find the termites.

Circle the number of termites you can find.

Draw a square around the number of spiders in the maze.

Which is heavier?

For each row, circle the plant or animal that is heavier.

row 4: buffalo

Answers: row 1: tree, row 2: rhinoceros, row 3: elephant,

Draw & color

Draw some trees and bushes for the giraffes to eat.

Draw the mother lion's eyes, nose, and mouth and color her in.

***Draw your own picture
of a giraffe & its friends:***
